

MAGLIV CORPORATION

MAGLIV CORPORATION

MAGLIV is Europe and Russia region importer for USA based Magnation Water Technologies. Magnation is the world's leading solution provider for non-chemical water treatment products for agriculture, sports and industry. Water efficiency, water quality and lowering operational costs for irrigation and crop protection in agriculture and sports is the main focus. We help our clients to solve water problems in the area of water scarcity, salinity issues, high calcium and ferrous water. Our goal is lowering the water- and carbon footprint in agriculture, sports and industry.
