

FLOVAC

FLOVAC

Flovac Vacuum Sewerage Systems are experts in solving difficult wastewater engineering problems in unique geographic areas and in areas which are environmentally sensitive, using vacuum technology. Our global engineering team understands the importance of local and project specific issues, whether it's droughts or floods, deserts, cyclones or earthquakes, remoteness, operational issues or environmental issues. Flovac engineers helped developed standards in a number of regions including Australia, Asia, the Middle East and Europe. For more information please visit our website www.flovac.com.
